

KE-189B

**100% BIODEGRADABLE
BIO-ENZYMATIC
SEWER MAINTAINER &
DEODORIZER**

200 BILLION COLONY FORMING UNITS PER GALLON

KE-189B, Mother Nature's first assistant in helping to DIGEST and DEGRADE grease, oil and fats in the entire waste system. This bio-enzymatic cleaner and digester contains a selection of specialized bacterial strains and chemical cleaners specifically designed to make your toilets, sinks, showers and pipelines SPARKLE like they never have before while enhancing and maintaining the efficient operation of sewage treatment systems. This biologically active formulation contains a powerful odor counteractant which destroys malodors at their source, **KE-189B** will clean more efficiently than any other ordinary cleaning products and reduces your need for hazardous chemicals such as acids, caustic and bleach.

Directions:

BOWL CLEANER: Use **KE-189B** daily as a toilet cleaner. Adequately cover the interior surface of the toilet bowl with a mop. Leave bio-enzymatic cleaner in the bowl for as long as possible or until the first flush. For heavy encrustation a bowl mop may be needed.

DEODORIZER: Physically remove as much of the malodor as possible. Follow this by mopping product directly on the source of odor with a cloth moistened with **KE-189B**.

DRAIN LINES AND DOWN PIPES: Daily use in shower, sink and tub drains will keep pipes clear of grease, fats and other solid waste. Use product 2 to 4 times weekly. Add just 2 oz. of product for each inch of pipe size. Example: 1" pipe = 2 oz. product, 4" pipe = 8 oz. product, etc. Regular use will not damage pipes or chrome.

SEPTIC TANKS: Add 1 quart for your initial treatment. Thereafter, use 8 oz. per week by flushing down commode.

BOAT AND RECREATION VEHICLES: Add 2 oz. per gallon of water in holding tank. Then use one pint per week for maintenance. To maintain scuppers on marine vessels, add **KE-189B** daily.
