Data Sheet

SNOW PLOW COATING

Helps Remove Snow With Less Effort

This coating deposits a thin, slippery layer of silicone that reduces friction on plow blades, shovels and truck beds to provide more efficient plowing. It also protects metal surfaces from rust and corrosion and will not wash off when cleaned after use.

Use On Snow Plows And Other Snow Removal Equipment

Effective Against

- Rust
- Use less fuel
- Corrosion
- Wear and tear on equipment

Features and Benefits

- Protects against rust and corrosion.
- Reduces friction for more efficient plowing.
- Will not wash off.
- Leaves a hard, slippery layer of silicon on plow blades.

Properties

Appearance.....	Colorless liquid
Fragrance.....	Solvent odor
Ready to Use.....	Yes
Specific gravity.....	0.787
Flash point.....	103 ° F
Solubility.....	Insoluble in water
VOC content	> 90.0

Directions Complete directions on product label

Spray, brush, swab or roll onto plow blades and other exposed metal and painted surfaces. Best results are obtained with coating is allowed to dry for 30 minutes.
Protect equipment from rusting by applying several applications after using equipment and during summer storage.

Active Ingredients

Mineral Spirits	CAS Number 64742-47-8
Silicone	63148-62-9

Safety

Caution: Combustible. Harmful or fatal if swallowed. Keep away from heat and open flame. Keep out of the reach of children.

DOT Shipping (ground transportation)

Proper Shipping Name:	None
Class:	None
ID Number:	None
Package Group:	None
