

VACFRESH

VACUUM CLEANER DEODORANT BARS

VACFRESH makes vacuuming a pleasure! A single bar slipped into the vacuum cleaner bag deodorizes a room while vacuuming. It puts out a quality fragrance that lingers long after the job is done. The bars are available in three quality fragrances that compliment any décor.

VACFRESH bars save time and make an immediate and lasting impression on everyone that enters the room!

HOW IT WORKS:

The circulation of air created by the vacuum dispenses **VACFRESH'S** fragrance. When the deodorant comes in contact with airborne odors it encapsulates the odor molecules and neutralizes them by absorption.

BENEFITS:

Enhances the impression a room makes by eliminating unpleasant odors.

A blend of powerful deodorants, quality natural essential oils, fine aromatic compounds and **Mellium** to neutralize fowl odors.

Combines two jobs into one. Now you can vacuum and dispense a pleasant deodorant, that neutralizes unwanted odors, This is an inexpensive way to eliminate the time spraying a liquid or aerosol product.

Available In: **Orange - Vanilla Bean - Berry Cherry**
Apple Cider - Summer Breeze

OTHER USES:

VACFRESH bars can be placed into air conditioning/heating units. As an example, Hotels and Motels can place one **VACFRESH** into each rooms unit and eliminate unwanted odors. **VACFRESH** will impart a light, pleasant fragrance that will neutralize any odor and last for a month, giving an easy and economical solution to a real problem. It is especially effective in rooms designated for smoking or that have odors caused by mildew and dampness.
