## EMERGENCY

## FLAT ROOF REPAIR

**ACTUALLY SEEKS  
OUT, SWELLS AND  
SEALS THE LEAK  
IMMEDIATELY!**

■ **NO  
NEED TO  
IDENTIFY  
THE EXACT  
AREA OF  
THE LEAK.**

■ **WORKS  
WHERE  
MOST OTHER  
PRODUCTS  
WON'T!**

**STOPS LEAKS IMMEDIATELY—**  
Even in pouring rain or through  
melting ice or snow.

■ **Tiny pellets get  
drawn into the  
area of the  
leak, swell and  
stop leak  
immediately.**

■ **Won't interfere  
with permanent  
repairs made  
later.**

**A ONE-Man Job!** —Simply disperse in the general area  
and let RAPID-SEAL "do its thing".

- ✓ **May be used on any flat roof: hospitals, schools, institutions, apartments, factories, malls, etc.**
- ✓ **Immediate, temporary solution to water leakage on built-up or flat roofs.**
- ✓ **Requires no special tools, training or labor.**

**PRODUCT: RAPID-SEAL**  
EMERGENCY ROOF PATCH

**FEATURES:** Use what you need—  
re-seal the pail—  
and save for another  
time, another use.

**COVERAGE:** Comes in square four gallon (25 LB)  
plastic containers (coverage about  
50 sq. ft. per pail) with re-sealable  
plastic lids. When empty, pails can  
be stacked and used for storage of  
hundreds of items.

- Excellent circular dam—just pour RAPID-SEAL in a circle around ponded water and pump out water within circle. Allows you to then work in a dry area.

- Excellent night water seal for any type of roof membrane; if there is no rain, sweep-up and re-use. Saves money.

- Product contains no solvents; is non-polluting and non-combustible.

- No messy bags to worry about getting rid of.

- Simply sweep or shovel away the remaining residue.

- Earth friendly.

**DIRECTIONS:** Pour directly from pail into a 1/2 inch layer over the suspected area of the leak. If the leak does not stop within a couple of minutes pour additional RAPID SEAL. As long as the RAPID SEAL stays wet it will continue to seal the leak. When the roof is dry, sweep up the residue and make permanent repairs.

**CONTAINS:** Proprietary. This product is not considered hazardous, however, it does contain a small amount of crystalline silica. Avoid breathing dust. VOC/VDS: none.
