KE-131/132/132B

DESCRIPTION

An all purpose deodorant that neutralizes and suppresses odors.

APPLICATION

Degreaser • Deodorizer • Destroys odors in drains, waste lines & grease traps
Desludges sewage plant • Removes grease and slime

Use in sewage disposal plants and sludge beds, manholes, catch basins, storm sewers, drainage ditches, creeks and canals, city dumps, refuse cans and trucks, in toilet basins that empty into septic tanks.

DIRECTIONS FOR USE

Sewage can be treated as it enters the collection system with 1 gallon KE-131/132/132B deodorant to 250,000 gallons liquid sewage. In very difficult cases 2 gallons KE-131/132/132B should be mixed into 250,000 gallons water. This can be done by dripping from a drum directly into the sewage lines. Treat sewage as it enters the collection system with from 4 to 20 parts KE-131/132/132B per million parts sewage. For drainage ditches, storm sewers, market area streets, trash cans, and trash trucks, dilute 1 gallon product with 25 gallons water. Use this mixture at rate of 50 gallons to each 1,000 square feet of area to be treated. Apply by hand-sprayer or any pumping spray system. For septic tank treatment, use no more than 2-1/2 gallons product to 100,000 gallons liquid sewage.

SPECIFICATIONS

Appearance:	liquid
Fragrance:	Characteristic
pH:	6.00
Flash point:	143F

PRECAUTIONS

Keep out of reach of children. Contains hydrocarbon solvent. Combustible. Keep away from heat, sparks and open flame. Do not breathe vapors. Keep out of eyes. Do not take internally. Avoid prolonged skin contact. Rinse empty container with water and discard. This product is intended for industrial and commercial use and storage by trained service persons only. Manufacturer will not be responsible for any injury, loss, or damage, if product is used in any manner not in compliance with label directions or if precautions are not observed.

FIRST AID

EYES: Flush with large amounts of water for at least 15 minutes; contact physician.
IF SWALLOWED: Do not induce vomiting or give anything by mouth to an unconscious person. Consult physician. EXTERNAL: Flush with water.
