DRY DEODORIZERS

- *Innovative Dry Formula*
- *Ultra Fine Spray-Long Suspension Time*
- *Dual Odor Counteraction System*
- *Low VOC Content - Meets '96 CARB Limit*
- *Nonchlorinated, Non-Ozone Depleting*
- *Light Touch Actuator*
- *Fragrances: GREEN APPLE - CINNAMON*

**FRESH LINEN- LEMONADE - MULBERRY -
VANILLA - ORANGE - STRAWBERRY**

DESCRIPTION

This new and improved product represents yet another evolution in room deodorizers. This breakthrough formulation contains all of the performance one might expect from a dry-type air freshener — but with a twist. Excellent bloom and suspension time, ultra fine particles, no fall out, and no residue for use in textile applications are just some of the attributes. What is truly remarkable about the product is that it achieves the incredibly dry spray without using ozone depleters. In fact, this product contains less than 30% total VOC content! A remarkable spray is not the only exciting thing about this new and improved formulation. The fragrances have been upgraded to ensure superior olfactory notes and tones. But a fantastic fragrance is not the only premium feature you will find. Also included is not one, but two odor counteractants for maximum deodorizing power. The dual system quickly neutralizes malodors with industrial and institutional strength even on smoke, decay, urine, feces, solvent, vomit, cooking, animal and more. Also featured is a new light-touch actuator for effortless pinpoint spray control. When used as directed, this advanced formula will effectively freshen without staining or leaving a residue.

MARKETS

Although versatile enough to use virtually anywhere, suggested uses include freshening rooms, fabric, drapes, bedspreads, carpet, auto interiors and air conditioners, closets, lockers, chests, shoes, luggage, showers, and garbage receptacles in hotel rooms, restaurants, hospitals, apartments, schools, nurseries, fitness centers, animal clinics and nursing homes.

DIRECTIONS

To deodorize the air: Spray whenever odors are a problem or occur. Allow a few seconds for super-fine mist to bloom.
To deodorize fabrics: Hold can 14 to 15 inches from surface and spray evenly in a sweeping motion to obtain maximum penetration.
