UNDERCOAT & SOUND DEADENER

Description

A super thick, super durable, flexible, rubberized coating which protects auto under bodies against corrosion caused by water, sand, road grime and salt. Reduces unwanted noise and vibration. Stays pliable in heat or cold. Resists cracking, peeling and abrasion. Sprays as a tough black sealant that goes on thick and sets up fast. Provides ultra long lasting protection.

For Use by

**AUTO and DIESEL REPAIR SHOPS
GARAGES, TAXI COMPANIES,
