- *Innovative Dry Formula*
- *Ultra Fine Spray-Long Suspension Time*
- *Dual Odor Counteraction System*
- *Low VOC Content - Meets '96 CARB Limit*
- *Nonchlorinated, Non-Ozone Depleting*
- *Nonproprietary Actuator*
- *Fragrance:*

Island Breeze - Baby Powder - Green Apple - Fresh Linen
Lemonade - Cinnamon - Mango - Mulberry - Strawberry
Vanilla - Orange - Terminator

DESCRIPTION

This product represents yet another evolution in room deodorizers. This breakthrough formulation contains all of the performance one might expect from a dry-type air freshener — but with a twist. Excellent bloom and suspension time, ultra fine particles, no fall out and no residues for use in textile applications are just some of the attributes. What is truly remarkable about the product is that it achieves the incredibly dry spray without using ozone depleters. In fact, this product contains less than 30% total VOC content! A remarkable spray is not the only exciting thing about this new and improved formulation. The fragrances have been upgraded to ensure superior olfactory notes and tones. But a fantastic fragrance is not the only premium feature you will find. Also included is not one, but two odor counteractants for maximum deodorizing power. The dual system quickly neutralizes malodors with industrial and institutional strength even on smoke, decay, urine, feces, solvent, vomit, cooking, animal, and more. Also featured is a new, universal, non-proprietary actuator for use in most available time dispense machines.

The metered valve delivers precise spray volumes in an ultra fine mist to effectively freshen rooms up to 6,000 cubic feet.

MARKETS

Although versatile enough to use virtually anywhere, suggested uses include freshening bath and washrooms, showers and garbage receptacle areas, in hotels, restaurants, hospitals, apartments, schools, nurseries, fitness centers, commercial and institutional buildings, animal clinics, nursing homes and more.

DIRECTIONS

Open the door of the cabinet and remove used can if the machine has been previously used. With the valve opening pointed towards you, place the new can in the cabinet and snap in place. Step to one side, then turn the control switch to "ON" position and push the switch to test operation. The machine should operate one full cycle and dispense one spray. Close the cabinet door. This can contains 3400 controlled sprays for use in closed areas that will last for 30 days when used on a 24 hour basis or 60 days if used 12 hours per day when set to dispense every 15 minutes.
